

The Life Cycle of Beverage Cartons

The Forest
- raw material for
the carton

The beverage carton is
made mainly from paper

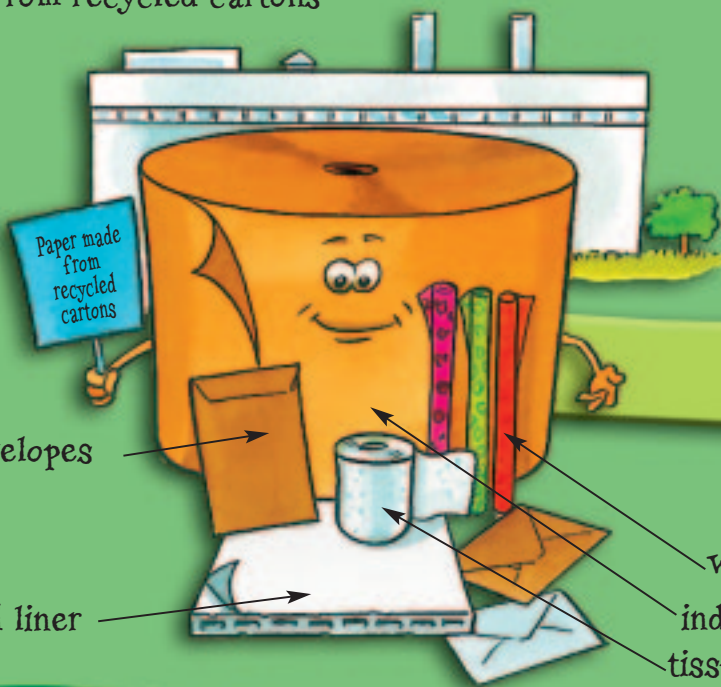

Ready to drink
cartons

**3 things you
have to do**

Here are some examples of what can be
made from recycled cartons

envelopes

plaster board liner

wrapping paper

industrial paper rolls
tissue paper

Used beverage cartons are taken to a
sorting centre where they are sorted,
baled and then sent to a recycling plant
